RE: Report of the Goldberger Loucks 5K Road race on May 11, 2024

The race was a huge success. The weather was beautiful. We broke all sorts of records that day. We had 185 participants in the race. The most we ever had. Last year's total was 157. We raised approximately \$26,000.00, far more than we have ever raised before. The breakdown on funds was as follows: Approximately \$14,000.00 from sponsors for the T-shirts, approximately \$6,000.00 from Rotary contributions and approximately \$6,000.00 from race entries.

I want to especially thank Andy Kimerling and the Westchester Road Runners who performed timing and scoring of the race. I also want to thank Wayne Bass, Commissioner of the City of White Plains who helped set the course and arranged for the police assistance. Also, thanks to Bob Becker of the White Plains Parks and Recreation who supplied some of the course Marshalls, and to a large group of Rotarians and friends who served at registration and also provided cheers and refreshments at the finish line.

Serious thought must be given as to how this event can be successfully continued in the future.
